

SETIS™ packaging information

Bioreactors are packaged in two different formats.

1. One-unit bioreactor format
2. Eight-units bioreactors format

One-unit bioreactor format

Bioreactors purchased in amounts between 1 to 15 units are packaged and delivered separated per unit.

Product code: SE-S01A

All parts of one bioreactor are packaged in a carton box:

- | | |
|------------------------------------|-------------|
| - Culture vessel | 1x |
| - Media vessel | 1x |
| - Screw caps (ø50 and ø80mm) | 1x each |
| - Silicone gaskets (ø50 and ø80mm) | 1x each |
| - Air filters | 2x |
| - Silicone tube | 0,35 meters |

Box dimension: 32x20x29cm

Box volume: 0,019cbm

Box gross weight: 2kg

Five times SE-S01A are packaged and delivered inside a bigger carton box.

Box dimension: 100x34x30cm

Box volume: 0,102cbm

Box gross weight: 10kg

Eight-units bioreactors format

Bioreactors purchased in amounts of 16 units or more, are packaged and delivered in three separated packages.

Product code: SE-S01B, C, D, E, F, G...

1. Carton box for culture vessels

Culture vessels (SE-CV6):	8x vessels per box.
Box dimension:	60x38x35cm
Box volume:	0,08cbm
Box gross weight:	6,5kg

Box package for culture vessels (SE-CV6)

2. Carton box for media vessels

Media vessels (SE-MV4): 8x vessels per box.

Box dimension: 73x25x30cm

Box volume: 0,055cbm

Box gross weight: 5kg

Box package for media vessels (SE-MV4)

3. Rest of bioreactor parts (SE-C8)

The following parts, necessary for 8 bioreactors, are packaged separated in a plastic bag:

- Screw caps (ø50 and ø80mm) 8x each
- Silicone gaskets (ø50 and ø80mm) 8x each
- Air filters 16x
- Silicone tube 3 meters

Bag gross weight: 0,85kg

Bags are packaged according to amount into a carton box.

Bag package for bioreactor parts (SE-C8)

Pallet setup

Wood-chip compressed pallets or Heat-treated wood pallets are used to deliver our products worldwide, fulfilling all international trade regulations.

Pallets certified by ISPM-15 norm.

Final pallet dimensions and weight are given with the offer.

Air freight maximum loaded pallet height is 160 cm.

Delivery by truck or sea freight maximum loaded pallet height is 200 cm.
